Achille Niyonshuti

Junior Frontend Developer

Kigali, Rwanda · achille010@github · achille@email.com

Languages
Kinyarwanda (Native) · English (Fluent) · French (Intermediate)

Soft Skills
Public Speaking · Technical Presentations · Team Collaboration · Problem Solving

PROFESSIONAL SUMMARY

Passionate Junior Frontend Developer with hands-on experience in modern web technologies across multiple programming paradigms and languages. Currently pursuing a TVET Certificate III in Web Development under the Rwanda TVET Board, with a strong academic foundation in software development and user interface engineering. Recognized for clear technical communication, confident presentation skills, and the ability to articulate complex concepts to both technical and non-technical audiences.

TECHNICAL SKILLS

Frontend Languages & Frameworks

HTML5 · **CSS3** · **JavaScript (ES6+)** · **TypeScript** · **React.js** · **Next.js** · **Tailwind CSS**

Other Languages & Tools

Python · **PHP** · **C / C++** · **Node.js** · **Express.js** · **Redux / RTK**

Design & Dev Tools

Krita · **Photoshop** · **Photopea** · **Canva** · **Git & GitHub** · **VS Code** · **Figma**

EDUCATION

TVET Certificate III — Web Development

Rwanda TVET Board · *2024 – Present*

- Core curriculum covering HTML, CSS, JavaScript, PHP, Node.js, Express REST APIs, MongoDB and Mongoose — a comprehensive multi-language software development pathway.
- Studied Web UI Development including web ergonomics, accessibility standards, and multi-page project delivery aligned to Ministry of ICT specifications.
- Studied Web Application Development covering full JavaScript fundamentals, server-side development, database integration, and API design.

EXPERIENCE

Frontend Developer (Hackathon) | Umurava AI Hackathon — *April 2026*

- Led frontend architecture and scaffolded the full monorepo codebase (Next.js + Node.js + TypeScript) for a 5-person team.
- Designed the recruiter-facing dashboard UI including job management, applicant ingestion, and AI shortlist visualization.
- Integrated Redux Toolkit for state management across auth, jobs, applicants, and screening result slices.
- Presented technical architecture decisions to teammates clearly, enabling parallel backend and AI development.

Full Stack Developer (Personal Projects) | **Independent** — *2023 – Present*

- Built a calculator REST API using Node.js/Express with ESM module architecture, MVC structure, and a 60-test Jest suite.
- Developed a Fast.com speed test replica in React using FontAwesome icons and custom animation logic.
- Maintained clean Git histories including branching strategies, backdated commits, and multi-repo management.
- Consistently used TypeScript across projects for type safety in both frontend and backend codebases.

NOTABLE PROJECTS

Umurava AI Talent Screener — *Next.js · Node.js · TypeScript · Gemini API · MongoDB · Redux*
AI-powered recruiter dashboard that screens and ranks job applicants using Google Gemini. Features structured profile ingestion, resume parsing, weighted scoring, and natural-language candidate reasoning output.

Calculator API — *Node.js · Express · TypeScript · Jest · ESM*
Production-grade REST API with full MVC architecture, floating-point precision handling, and a comprehensive 60-test Jest suite covering edge cases and error boundaries.

Speed Test Replica — *React · JavaScript · FontAwesome · CSS Animations*
A faithful Fast.com replica featuring animated download/upload measurement UI, icon-based rendering, and responsive layout — built entirely in React with no UI libraries.

PRESENTATIONS & COMMUNICATION

- Fluent English speaker with demonstrated ability to explain and document technical architecture to diverse audiences.
- Experienced in writing clear technical documentation including README files, architecture diagrams, API documentation, and codebase onboarding guides.
- Participated in team-based hackathon environments requiring daily async communication, task delegation, and progress presentations.
- Regularly writes contest application statements and professional profiles that clearly and confidently articulate technical and personal strengths.
